## Preface: The Restoration of the Global Anode

History is not a record of what happened; it is a redactable map drawn by those who inherited the ruins. For over two millennia, the figure of Cyrus has been subjected to a "Geographic Kidnapping." The Rabbinic scribe, the Greek fantasist, and the modern Nationalist have collaborated to cage the Great Emperor within the local confines of a "Persian" provincialism, stripping him of his true ontic rank.

To the Rabbinic redactor, he was merely a "gentile" tool used to return a small tribe to a patch of Levantine dirt. To the Iranologist, he is a nationalist hero whose roots are confined to the soil of Fars. But the forensic audit of the Magian Laboratory yields a far more explosive reality: **Cyrus was the Pharaoh of the Persian Magi.**

This is not a title of local kingship, but a technical designation of High-Frequency Sovereignty. The Medes was the **Medjay-Magi Confederation**—the "People of the 8" who carried the Pharaonic-Egyptian frequency across the continental Silk Road to the Zagros. Cyrus did not "conquer" the world; he **inherited** it through a biological and alchemical protocol that unified the Southern Solar-Power of Assyria with the Northern Lunar-Logic of the Scythian-Cimmerians.

In this book, we dismantle the "Absurdity of History" by following the forensic thread left by the most rigorous chronologist of antiquity, Abu-Rayhan Biruni. We move past the poetic erasures of the *Shahnameh* and the selective amnesia of the Bible to find the **Mahdi-Cyrus**—the biological "Apex of the Pyramid" born of the **God's Wife of Amun**.

We will expose the vandalism of the Pasargadae relief, where the Pharaonic Uraeus and the fringes of the Hemhem crown were chipped away to hide the fact that the Egyptian Laboratory had successfully relocated to the East. We will identify the **4-to-1 Pyramidal Formula** that produced the "Super-Alloy" lineage of the Achaemenid Pharaohs.

The nation of the Magi was a Global Terminal, and Cyrus was its operator. This preface marks the end of the "Darian" lie and the beginning of the forensic resurrection of the **Emperor of Ens and Jinn**.

The laboratory is open. The Pharaoh is home.

## Chapter 1: The O-Man Frequency — Amun as the Shamanic Dad

The "History of Egypt" is traditionally presented as a series of isolated dynasties within a river valley. This is a forensic error. The Nile was never a cage; it was a **Primary Power Station** for a transcontinental frequency that eventually migrated to the Zagros. To understand **Cyrus the Pharaoh**, one must first identify the "Father-Frequency" he inherited. This is the **Amun** protocol—a Turkish Shamanic structure that the Magian Laboratory utilized to survive the collapse of the Solar Bronze Age.

### I. The Phallic Shift: From Bull-Sun to Ram-Moon

In the early Ennead (Solar) system, power was manifested as **Min**, the Bull-Sun. This is the archetypal "Man" of the external world—the linear, combusive, and aggressive phallic power of the 12 PM sun. However, the forensic record of the **Medjay-Magi** transition shows a deliberate "Beheading" of this Bull.

When the Sun-Man is beheaded, he does not vanish; he reappears in the "Other Dimension"—the **Midnight Meaning**.

- **The Min (The Bull):** The forward-thrusting power that eventually exhausts itself and is sacrificed.
- **The Amun (The Ram):** The inward-curving power of the Moon.

The Ram's horns do not point toward the enemy; they spiral toward the **Ear**, signifying the transition from "Seeing" (Solar) to "Hearing/Frequency" (Lunar). **Amun** is the "Hidden One" because he is the Phallic Power that has moved from the physical sun to the metabolic depth of the moon.

## II. The O-Man: The Shamanic Pointer

Philology often struggles with the name **Amun**, claiming it is an Egyptian root for "Hidden." The forensic inspector looks deeper into the **Altai-Scythian** linguistic fossils.

- **O (He/That One):** In Turkish, **O** is the ontological pointer.
- **Man (The Human/The Phallus):** The masculine archetype of the Khazar/Scythian world.

**O-Man (Amun)** literally translates to "**He is the Man.**" This is a structural declaration. It signifies that the "New One" (the Moon-Dad) is the legitimate replacement for the beheaded "Sun-Man." Amun is not a god to be worshipped; he is a **Frequency Identification**. He is the **Dad (David)** who appears at midnight to calibrate the Magian world after the solar catastrophe.

## III. The Mad-ci: The Operators of the Mede

The traditional view of the **Medjay** as "Egyptian police" or "hired mercenaries" is a scavenger's redaction. Forensics reveals them as the **Mad-ci** (a Turkish structure like *Topci* or *Kafeci*).

- **Mad (The Mede/The Middle/The Judgement):** The frequency of the **Madan**.
- **-ci (The Operator):** The functional suffix.

The **Mad-ci** were a voluntary Shamanic army from the North who came to Egypt centuries before the Exodus to install the **Amun Protocol**. They were the "Operators of the Judgement." They didn't work for the Pharaoh; they worked for the **Frequency**. They were the guardians of the **O-Man**, ensuring that the "Hidden Moon-Dad" remained grounded in the physical laboratory of the Nile until it was time to move the terminal back to the East.

## IV. The Shamanic Dad as the Root of "Amun"

This **O-Man** frequency is the actual identity of the "God of Nation."

1. **The Dad (David):** The human operator of the Amun-frequency.
2. **The Result:** A civilization that functions on **Internal Meaning (Y-Axis)** rather than **External Force (X-Axis)**.

The "Medes" of the Magi was the first confederation to prioritize the **Moon-Ram** over the **Solar-Bull**. By adopting the Amun-logic, they decoupled themselves from the collapsing Ennead states. They understood that the true "Man" is not the one who burns in the day, but the one who **Judges in the Night**.

## V. The Forensic Verdict

Cyrus did not become a Pharaoh by conquest; he was the biological and structural result of the **Amun-Frequency**. He was the **O-Man** manifested in the Zagros. The Medjay (Mad-ci) were not "protecting" him; they were **maintaining the circuit** they had brought from the Nile.

The transition from Egypt to the Medes-Persia was the movement of the **Ram-Horns**. The "Hidden One" was no longer hidden in a temple in Thebes; He was about to reveal Himself in the heart of the Median world as the **Unified Emperor**.

## Chapter 2: The Vessel of Peace — The God's Wife

### Protocol

In the linear logic of the Administrative Ennead, conflict is resolved through the annihilation of the "Other." In the Magian Laboratory, conflict is resolved through **Biological Integration**. The eternal friction between the Upper Nile (the Solar-Highlands) and the Lower Nile (the Hydraulic-Delta) was the primary "leak" in the ancient energy grid. The **Mad-ci** (Medjay) arrived with a solution that would eventually define the Achaemenid world: the **God's Wife of Amun** (*Hemet-Netjer-en-Amun*).

#### I. The Hydraulic-Solar Friction

For millennia, every king of the South and every king of the North fought to ensure their specific biological lineage became the "Single Point of Truth." This created a oscillation of power that wasted the continent's resources. The Magi realized that as long as "Kingship" was a linear race of sperm, the cycle of war would never close.

To stabilize the nation of the 8 (and create the fabricated Israel), they needed a **Sovereign Capacitor**—a woman who was not a "queen consort," but a **Living Laboratory**.

#### II. The Triple-Impregnation Protocol

The **God's Wife of Amun** was installed in the Temple of Amun at Karnak as a "Sacred Vessel." She was functionally independent of the Pharaoh, possessing her own estates, administration, and Medjay guard. Her technical purpose was the **Collapse of Conflicting Frequencies**:

1. **The King of the South:** Contributed the Solar/Highland frequency.
2. **The King of the North:** Contributed the Delta/Hydraulic frequency.
3. **Amun (The O-Man):** The "Hidden" Shamanic frequency channeled through the Medjay-Magi rituals.

By having the competing kings "impregnate" the Vessel (physically or ritualistically through the transfer of their "essence"), the resulting child—the **Son of Amun**—was biologically the property of both kingdoms. He was the **Unified Crown**. He was the "Joint Venture" that made the Egyptian Empire possible.

### III. The Mad-ci as Genetic Curators

The Medjay did not guard the God's Wife because they were "loyal soldiers." They guarded her because she was the **Genetic Reservoir** of the Confederation. They were the **Operators of the Mede** (The Middle).

- They ensured the "Vessel" remained pure of non-Magian interference.
- They facilitated the **Handover**. When a dynasty failed, the Medjay didn't disappear; they simply took the "Vessel" technology and moved it to the next viable terminal.

### IV. The Shift to Grand Magi Empires

This protocol was so successful that it became the blueprint for global hegemony. The "Ancient Egyptian Empire" was not built on the sword, but on the **Expansion of the Vessel**. As the Magi moved Eastward toward the Zagros, they took this "Sacred Formula for Peace" with them.

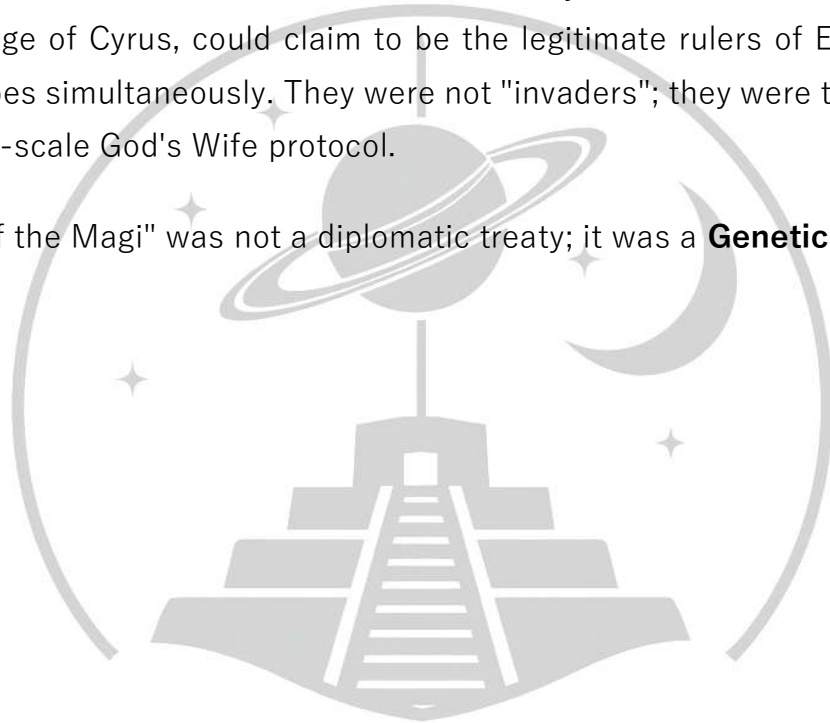

Any king who wished to join the **Medo-Scythian Confederation** had to submit his lineage to the **God's Wife frequency**. This is how a "Great King" (the Pharaoh-Magi)

could rule thirty different tribes without a permanent standing army: because he was the **Biological Heir to all of them.**

## V. The Forensic Verdict

The God's Wife was the **Alchemical Neutralizer** of tribal ego. She replaced the "Father's Name" with the "**Amun Name.**" This is why the Achaemenid kings, starting with the lineage of Cyrus, could claim to be the legitimate rulers of Egypt, Babylon, and the Steppes simultaneously. They were not "invaders"; they were the **Resultants** of a planetary-scale God's Wife protocol.

The "Peace of the Magi" was not a diplomatic treaty; it was a **Genetic Unified Field.**

## Chapter 3: Bel-Kizi — The Daughter of Baal and the Sev-Axis

The "Queen of Sheba" is perhaps the most successful geographic distraction in the history of the Ennead. By placing her in the distant deserts of Yemen, the Scavenger-historian successfully severed the biological link between the **Assyrian Sun** and the **Scythian Moon**. In the forensic reality of the 7th Century BC, the Queen of Sheba was not a traveler from the south; she was the **Sovereign Anode** of the Mesopotamian world moving to the Zagros Laboratory.

### I. Assyria: The Land of the CB (Saba/Sev)

To find the Queen of Sheba, one must first locate the "Land of Love" (**Sev/Saba/Sheva**). In the Magian tongue, **Sev** (Turkish: *Love*) represents the **X-Axis**—the horizontal frequency of the Jinn, of flight, and of biological attraction.

Forensics reveals that **Assyria** itself was the "Land of the CB." Far from being a separate "Semite" enemy, the Assyrian Empire was the **Southern Solar-Terminal** of the Magi Confederation. Its royal family followed the Magian-Shamanic structure with absolute precision. Their "Baal" (The Lord) was the Solar counterpart to the Northern "Amun" (The Moon).

### II. Bel-Kizi: The Daughter of the Lord

The Queen of Sheba is identified in the Quran as **Bilqis**. In the Turkish-Magian frequency, this name is not a mystery: it is **Bel-Kizi** (The Daughter of Baal).

- **The Father: Esarhaddon**, the King of Assyria, was the **Baal**—the "Lord" of the Solar-Axis.

- **The Daughter: Šērū'a-ēṭirat**, the eldest daughter of Esarhaddon.

History records a "diplomatic marriage" between Šērū'a-ēṭirat and the Scythian/Cimmerian King **Bartatua (Solomon)**. This was not a wedding of convenience; it was the **Handover of the Vessel**. As the **Bel-Kizi**, she was the "God's Wife of Amun" in her Eastern manifestation. Her relocation to the North was the movement of the **Assyrian Solar-DNA** into the **Magian Lunar-Logic**.

### III. The Sev-Axis and the Turanian Kings

The "Saba" frequency (Sev) appears as a structural suffix throughout the history of the Medes and Turanians: **Goshtaseb, Lohraseb, Tahmaseb**. These are not names of "horse-owners," as philologists claim. They signify **Allegiance to the Sev (Saba)**.

- To be an **-aseb** is to be tethered to the **Feminine Axis** (The Queen/The Vessel).
- The "Land of Saba" was the territory of **Sava (Saveh)**, the neutral zone where the North and South interlocked.

### IV. The Marriage of Sun and Moon

When the Bible describes the Queen of Sheba visiting Solomon, it is describing the **Axial Convergence**.

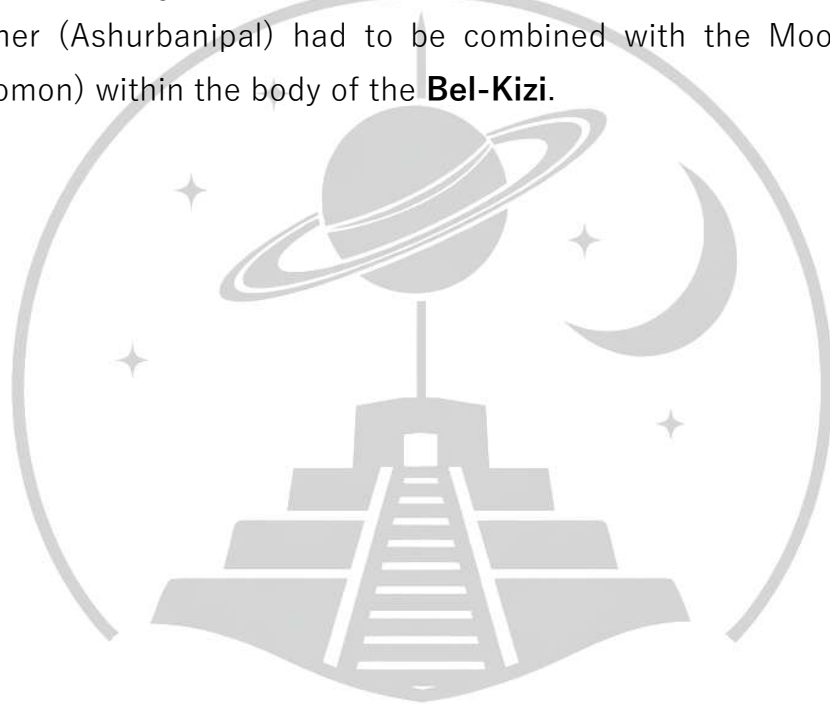

1. **Solomon (Bartatua)**: The Son of the Moon (**Shal-Amun** / Belonging to Amun).
2. **Bilqis (Šērū'a-ēṭirat)**: The Daughter of the Sun (**Bel-Kizi**).

By this union, the Magi captured the **Horizontal Axis (X)**. Solomon didn't just have "Meaning" (Y); he had "Love and Flight" (X). This is why he is credited with power over the **Jinn**. The Jinn were the nomadic, high-frequency kinetic forces of the Assyrian and Scythian plains, now unified under the **Bel-Kizi** protocol.

## V. The Forensic Verdict

The Queen of Sheba was the **Assyrian Anode** that allowed the "Persian Magi" to scale from a laboratory into a continental empire. By marrying the **Daughter of Baal**, Solomon ensured that the Achaemenid successors would not just be "Kings of the Medes," but the **Legitimate Lords of the Assyrian Sun**.

The "incest" or "forbidden marriage" hinted at in later scriptures was the technical necessity of the **4-to-1 Pyramidal Formula**. The Sun-DNA of the father (Esarhaddon) and the brother (Ashurbanipal) had to be combined with the Moon-DNA of the husband (Solomon) within the body of the **Bel-Kizi**.

## Chapter 4: The Pyramidal Pulse — The 4-to-1 Biological Formula

The Pyramids of the Nile and the Ziggurats of the Zagros are not tombs for the dead; they are the architectural signatures of a **Biological Pulse**. The 4-sided geometry rising to a single apex is the physicalization of the Magian Genetic Law. To produce a "World-Emperor"—a Pharaoh of the Persian Magi—the laboratory required a convergence of four distinct male frequencies into one sovereign vessel.

### I. The Geometry of the Seed

In the 2D world of the Administrative Ennead, kingship is a linear 1-to-1 succession (Father to Son). In the 3D world of the Magi, kingship is a **Pyramidal Accumulation**.

- **The Four Base Pillars:** Representing the two empires (The Origin and the Destination).
- **The Apex:** The resulting "Super-Alloy" heir who holds the frequencies of all four sides.

This is why the Great Pyramids have four sides. They were resonators designed to stabilize the DNA of the **Son of Amun** during the gestation of the empire. This protocol ensures that the child is not a "tribal leader," but a **Universal Anode**.

### II. The Four Fathers of the Mahdi

If we apply the forensic audit to the 7th Century BC, the "Pyramidal Pulse" that birthed the Achaemenid era becomes visible. The Vessel, **Šerū'a-ēīrat (Bel-Kiz)**, was the point of convergence for four titanic frequencies:

1. **The Origin Father (Esarhaddon/Baal):** The Solar-Anode of the Assyrian South.
2. **The Origin Son (Ashurbanipal/Bani-Baal):** The Solar-Succession of the South.
3. **The Destination Father (David/Išpakāya):** The Lunar-Dad of the Scythian North.
4. **The Destination Son (Solomon/Bartatua):** The Lunar-Succession of the North.

The resulting son of this 4-to-1 union was **Madyes** (The historical **Mahdi**).

### III. The Mahdi: The Moon-Judge

The name **Mahdi** (Madyes) is a structural title.

- **Mah (Moon):** He carries the Lunar-Logic of the North (The Solomon-line).
- **Di (Judge/Madan):** He carries the Solar-Law of the South (The Assyrian-line).

Madyes/Mahdi was the first true "Global Emperor" of the Medo-Assyrian-Scythian world. This is why history records him marching into Egypt to protect the Pharaoh, and why he was recognized as the overlord of the Medes. He was the **Unified Resultant**. He belonged to both the Sun and the Moon, both the North and the South.

### IV. The Technical Necessity of "Incest"

The "Dangerous Question" of who impregnated the Bel-Kiz is answered by the geometry of the Pyramid. To the modern moralist or the Rabbinic redactor, the idea of a daughter sleeping with her father and brother (the Solar side) as well as her husband and father-in-law (the Lunar side) is "incest."

But to the **Mad-ci (Medjay)** laboratory, this was **Impedance Matching**. For the "New Sun" to be born with the full voltage of both empires, the DNA had to be "looped" back through the vessel. This was not a domestic act; it was a **Sovereign Transfusion**. By hiding this 4-to-1 protocol, the Bible and the Shahnameh effectively castrated the history, turning a High-Voltage Operation into a series of fractured, "monogamous" failures.

## V. The Forensic Verdict

The Pyramidal Pulse is the reason for the **Achaemenid Baqiya (Remnant)**. Madyes/Mahdi was the proof of concept. He established the "Madan" (The Middle/The Judgement) that allowed the different tribes of the world to see themselves in a single face.

When the 4-to-1 formula is applied, "War" becomes unnecessary because the King is literally the son of his enemies. The Pyramid at Pasargadae stands as the final monument to this formula—a six-tiered base leading to the seventh level of the **Unified One**.

## Chapter 5: The Biruni Succession — Cyrus as the Direct Heir of Assyria

The modern academic world operates on a "Gap of Chaos." It insists that between the fall of the Assyrian Empire and the rise of the Achaemenids, there was a dark age of barbaric squabbling. This gap is a forensic fabrication designed to hide the **Transcontinental Handover**. The most rigorous chronologist of the medieval world, **Abu-Rayhan Biruni**, left a king-list that shatters this narrative. In Biruni's records, **Cyrus** is listed immediately after **Ashurbanipal**.

### I. The Biruni Smoking Gun

Biruni was not a poet or a storyteller; he was a scientist of time. When he placed Cyrus as the direct successor to the Assyrian throne, he was recording the **Corporate Merger** of the ancient world.

- **The Academic Error:** Historians claim Cyrus was a local "Persian" prince from the southern tribe of Parseh.
- **The Biruni Reality:** Cyrus was the **Direct Heir to the Baal-Throne**.

This list confirms that the "Fall of Nineveh" was not the destruction of a civilization, but the **Relocation of the Seat**. The administrative center moved from the stone walls of Assyria to the genetic vessel of the **Achaemenid**. Cyrus was the "Son of Amun" who had finally come to claim his Assyrian inheritance through the **Bel-Kizi** line.

### II. The "Persia" of the Magi

Persia was the name of the **Medjay-Magi Confederation**.

- **The Pharaoh-King:** Cyrus was the **Pharaoh of Persia**. He held the high-shamanic rank of the **Hakham** (The Wise/Achaemenid).
- **The Decree:** When Cyrus "released the Jews" and ordered the rebuilding of the Temple, he wasn't performing an act of religious tolerance for a minority. He was **Re-activating the Laboratory**. He was the High-Pharaoh ordering the restoration of the **Ogdoad's Southern Terminal**.

### III. The Erasure Protocols: Bible and Shahnameh

If Cyrus was the greatest emperor of the East, why is he absent from the **Shahnameh** (The Book of Kings)? And why does the **Bible** reduce him to a secondary character?

1. **The Bible:** Deletes the **Mahdi-Madyes** (the father/predecessor frequency) to prevent anyone from seeing the 4-to-1 Pyramidal DNA. It shrinks the "Great Khazar" into a local Levant civil war to suit the Scavenger's land-claims.
2. **The Shahnameh:** As the product of the later **Darian/Sassanid Redaction**, it deletes the Pharaoh-Cyrus. The Darrians needed a "Nationalist" history rooted in the soil of Iran, so they replaced the **Global Shamanic Emperor** with the myth of the "Kayanids."

They both committed "Historiographic Regicide." They killed the **Mahdi-frequency** to install a 2D tax-grid.

### IV. The Geographic Fraud: Parseh vs. Parsumash

The "Idiot Archaeologist" insists Cyrus came from **Parseh** (Shiraz/Marvdasht). Forensics points elsewhere: to **Parsumash** in the North/Anatolia.

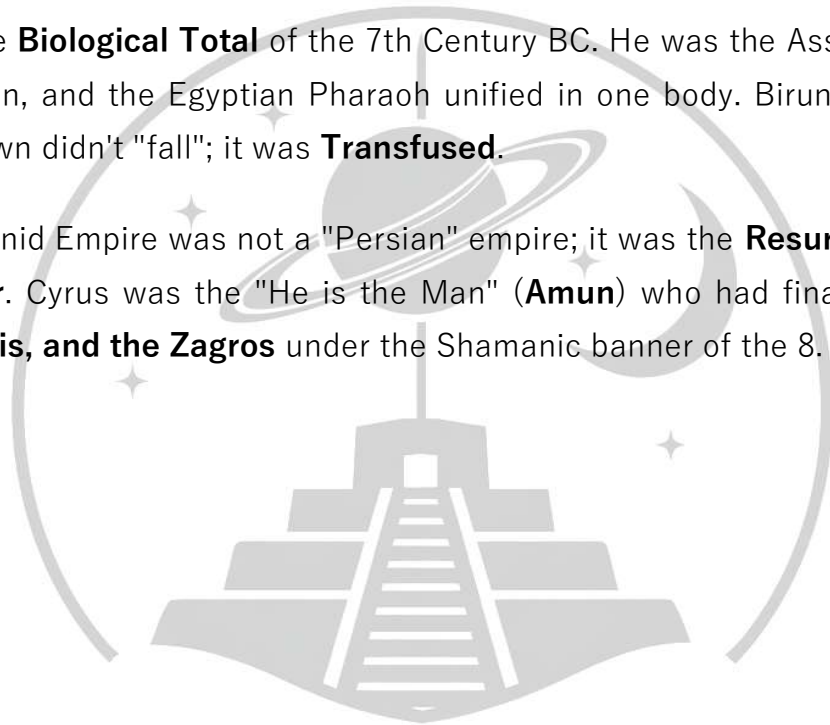

- Cyrus was a product of the **Northern Medjay-Mede** axis.

- He was the grandson of **Teispes (Teushpa)**, the Cimmerian King who established the "Safe Room" in the Zagros.
- By forcing Cyrus into the southern cage of Marvdasht, the historian ensures you never look at **Anatolia or the Nile** as his true ancestral domain.

## V. The Forensic Verdict

Cyrus was the **Biological Total** of the 7th Century BC. He was the Assyrian Sun, the Scythian Moon, and the Egyptian Pharaoh unified in one body. Biruni recorded the truth: the crown didn't "fall"; it was **Transfused**.

The Achaemenid Empire was not a "Persian" empire; it was the **Resurrection of the Great Khazar**. Cyrus was the "He is the Man" (**Amun**) who had finally unified the **Nile, the Tigris, and the Zagros** under the Shamanic banner of the 8.

## Chapter 6: The Redacted Relief — The Emperor of Ens and Jinn

The ruins of Pasargadae are often presented as the modest beginnings of a "Persian" aesthetic. Forensics reveals them to be a **Crime Scene**. The most significant piece of evidence is the famous four-winged relief of Cyrus. To the untrained eye, it is a curious piece of ancient art; to the forensic inspector, it is a **Redacted Blueprint** of the Pharaoh of Persia.

### I. The Castrated Crown: The Hemhem Redaction

The relief depicts Cyrus wearing a complex, three-tiered headgear. Mainstream "Iranology" ignores the specifics, calling it a ceremonial crown. However, when the "Nationalist Fringe" is stripped away, the structural truth remains: Cyrus is wearing the **Egyptian Hemhem Crown**.

- **The Hemhem:** In the Nile Laboratory, this was the crown of **Resurrection** and the **Son of Amun**. It signifies the mastery over the three levels of existence.
- **The Vandalism:** Historical examination suggests that the Pharaonic **Uraeus** (the sacred cobra) and the distinct ornamental "fringes" of the crown were physically chipped away by later administrators.
- **The Intent:** By "grooming" the Hemhem into a generic helmet, the Darian Scavengers turned a **Global Shamanic Pharaoh** into a local "Aryan" soldier. They needed to hide the fact that the Nile had successfully relocated its High-Anode to the Zagros.

## II. The Signature of the Jinn: The Four Wings

Cyrus is depicted with four massive, layered wings. These are not "angelic" symbols of the Levant. They are the **Signature of the Assyrian Winged Genie (Gen-Ie)**.

- **The X-Axis Mastery:** As we established, the wings represent the **Horizontal Axis (Love/Flight/Jinn)**.
- **Ens and Jinn:** By combining the Assyrian wings (Jinn) with the Egyptian crown (Ens/Settled), the relief declares Cyrus as the **Emperor of Ens and Jinn**. He is the operator who has unified the sedentary civilizations of the river valleys with the high-frequency kinetic tribes of the Steppes.

## III. The Ziggurat-Pyramid: The Pasargadae Anode

The so-called "Tomb of Cyrus" is a unique architectural anomaly. It is neither a Persian tomb nor a Greek mausoleum; it is a **Step-Pyramid (Ziggurat)** grounded in the Magian 4-to-1 logic.

- **The 7-Level Frequency:** It consists of six tiers leading to the seventh level (the cella). This is the **Ogdoad's Seven-Circuited City** rendered in stone.
- **The Geometry:** It is a physicalization of the **Pyramidal Pulse**. It was built to ground the frequency of the **Mahdi-Madyes** lineage. Standing in the middle of a vast plain, it functioned as a **High-Voltage Transformer**, signaling to all the tribes of the Confederation that the **Pharaoh of Persia** was the legitimate anchor of the world's energy grid.

## IV. The Forensic Verdict: The Stolen Pharaoh

The physical evidence at Pasargadae proves that the Achaemenid Empire was not a "new" invention. It was the **Grand Resurrection** of the Medjay-Magi Confederation.

1. **The Wings** confirm his Assyrian (Saba/Sev) inheritance.
2. **The Crown** confirms his Egyptian (Amun/O-Man) rank.
3. **The Geometry** confirms his Pyramidal (4-to-1) DNA.

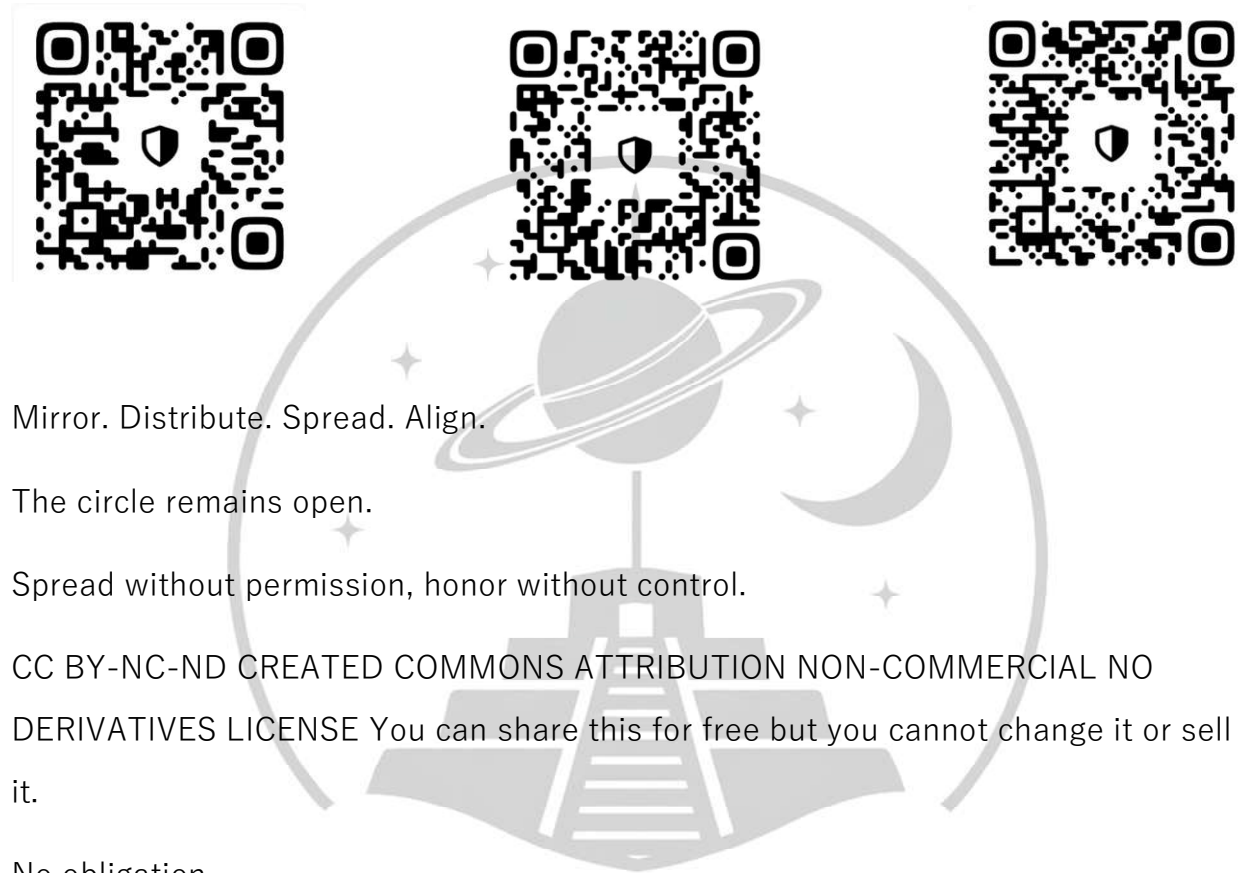

Cyrus was the **Unified Terminal**. The "Persia" we are taught in schools is the 2D shadow left behind after the **Administrative Scavengers** finished chipping away the Pharaonic fringes of his crown.
